Mohammad Mahdavi

Mid Level Full Stack Developer

TECHNICAL SKILLS

Frontend
React
JavaScript
Tailwind CSS
Vite

Backend
Go (primary)
Django
Node.js

Data & tools
PostgreSQL
Git

Working knowledge
DevOps fundamentals
Database concepts
Web security fundamentals

EDUCATION

Bachelor's degree in Computer Engineering
Khayyam University
Mashhad, Iran
2021–2026

PROFILE

Full stack developer with nearly two years of coding experience. Builds React applications with Go as the primary backend language, with additional experience in Django and Node.js.

EXPERIENCE

Full Stack Developer 2026–Present

Megatite

- Develops web applications for CRM operations, customer services, and event kiosks.
- Migrating the CRM backend from Node.js to Go.

PROJECTS

Honor PreInvoice: Android app for creating pro forma invoices, managing customer and product details, and exporting PDF or Excel files formatted for A4 printing.

Stack React Native

Megatite CRM: CRM for sales, accounting, inventory, and management.

- Built a proforma workflow covering accountant approval, stock checks by product weight, shipment, and seller follow-up with customers.
- Added overview and dashboard views with seller income charts, city and customer filters, and sales metrics.

Stack React · TypeScript · Tailwind CSS · Vite · Node.js · PostgreSQL · Ubuntu

---

Megatite Customers Club: Customer portal and landing page implemented from a UI/UX design.

- Built signup and login, a customer dashboard, contact and about pages, and a slab-master leaderboard.
- Added landing page sections for top slab masters and pages for events and conferences.

Stack React · JavaScript · Tailwind CSS · Vite · Go · PostgreSQL · Ubuntu

---

GitShield: Tool for scanning GitHub repositories for security leaks.

Stack React · TypeScript · Tailwind CSS · Python · Django · PostgreSQL

Secora: Interactive cybersecurity learning platform for schools and colleges.

- Built learning flows for around 50 lessons combining puzzles, step-by-step exercises, hands-on practice, guides, and quizzes.
- Added a dashboard, levels, achievements, and a path finder to guide learners.
